

Hello,

Here is your official Milwood group Installer Identity card. This card shows that you have completed a training day at the Milwood training academy and you are now officially an approved installer.

These cards can be used to show your customers upon request that you are an official installer and that you have all the training required to erect these systems for their own piece of mind. We understand that you purposely may not mention Milwood in your marketing material so there is no obligation to do so.

If you require any further training or would like to learn how to install our latest products, please contact me so we can arrange for your next training day and you will up to speed with all our products and can add even more to your range.

For any questions, enquires or to book another training day please contact me at T.Ibrahim@milwoodgroup.com or phone me on 01622 238 202.

Kind Regards

Tahlia Ibrahim

Sales and marketing assistant
